The Deputy City Clerk: The following ordinance was adopted on first reading, advertised in accordance with law and a hearing date set. It is now before you for public hearing, second reading and final passage:

Ordinance amending Title 2, Administration, Chapter 18, Department of Economic and Housing Development, of the Revised General Ordinances of the City of Newark, New Jersey, 2000, as amended and supplemented, be and the same is hereby further amended, by adding a section to create a City of Newark Neighborhood Rehabilitation Program.

WHEREAS, the Department of Economic and Housing Development has conducted a survey of the condition of residential properties in the City of Newark and determined that homeowners, especially senior citizens, are in need of funding assistance to abate code violations that exist in their homes; and

WHEREAS, the Department of Economic and Housing Development has designed a Neighborhood Rehabilitation Program to provide eligible local homeowners with funds to abate code violations in 1 to 4 family owner-occupied residential properties and proposes to implement the City of Newark's Neighborhood Rehabilitation Program; and

WHEREAS, the City of Newark's Department of Economic and Housing Development administers City of Newark HOME Program Entitlement Funds, of which \$500,000 is allocated in the City of Newark's 2003 Consolidated Plan to fund Neighborhood Rehabilitation Program citywide. An additional \$1,000,000 in HOME Program Dollars is allocated for this program in the City of Newark's 2004 Consolidated Plan; and

WHEREAS, the Municipal Council is desirous of allowing the Director of the Department of Economic and Housing Development to enter into contracts, execute deeds, mortgages and other related legal documents and contracts for distribution of above-mentioned Neighborhood Rehabilitation Program funds to eligible Newark homeowner-occupants.

NOW, THEREFORE, BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, THAT:

Section 1. Title 2 - ADMINISTRATION, Chapter 18, Department of Economic and Housing Development, of the Revised General Ordinances of the City of Newark, New Jersey, 2000, as amended and supplemented, be and the same is hereby further amended, by adding a Section to read in its entirety as follows:

2:18-4-2 - City of Newark Predatory Lending Program

- A. Establishment - The Division of Housing Assistance is authorized to establish a City Neighborhood Rehabilitation Program. The selection criteria and regulation for participation in the program by qualifying homeowner occupants shall be consistent with all terms, rules, and regulations established by the City of Newark's Department of Economic and Housing Development and the U. S. Department of Housing and Urban Development (HUD). Funding of this program is subject to the availability of funds.

Summary of Program

Any residential owner occupied structure consisting of one (1) to four (3) dwelling units, and is located in the City of Newark is eligible for participation in the Neighborhood Rehabilitation Program (NRP). Mixed use or non-residential buildings are not eligible for treatment in this program.

B. Type of Applicants

The applicant must be an Owner/Occupant of a residential property in the City of Newark and the household must meet the HUD definition of a low/moderate income household (The definition of very-low and low income household is a household with an income that does not exceed 80% of the median income for Essex County.

Eligible participants must be the owner(s) of record at the time of application submission. For-Profit corporations, non-profit corporations, partnerships, etc., are ineligible for participation in this program.

C. Income Verification

Income verification shall be based upon the applicant's current income as reported as "Adjusted Income" on the Federal Income Tax 1040/1040A or addendum award letters or verification from any entities providing fixed income including Social Security, Pension, Disability or Death Benefits. "Income" shall be defined as the total combined earnings of all household members. "Household Members" mean all persons who share the owner/occupant's dwelling unit.

D. Types of Financial Assistance & Periods of Affordability

Periods of Affordability

Assistance to NRP eligible applicants will be funded with HOME Program Funds. Any HOME assisted unit must meet the affordability requirements for not less than the applicable period specified in the table listed below, beginning after project completion.

The affordability requirements apply without regard to the term of any loan or mortgage or the transfer of ownership. The City of Newark will insure compliance with its affordability requirements by placing a deed restriction on the treated property. Such deed restriction will remain in effect until the affordability period has been satisfied.

<u>Amount of Funds Awarded</u>	<u>Affordability Control Period</u>
\$ 0 - \$14,999	5-Years
\$15,000 - \$40,000	10-Years
\$ over \$40,000	20-Years

As stated above, HOME-assisted units must be occupied only by households that are eligible low-income families and must meet the following requirements to qualify as affordable housing.

Rent Limitations

HUD provides the following maximum HOME rent limits. The maximum HOME rents are the lesser of:

1. The fair market rent for existing housing for comparable units in the area as established by HUD under 24 CFR 888.111; or
2. A rent that does not exceed 30 percent of the adjusted income of a family whose annual income equals 65% of the median income for the area, as determined by HUD, with adjustments for number of bedrooms in the unit. The HOME rent limits provided by HUD will include average occupancy per unit and adjusted income assumptions.

Initial Rent Schedule and Utility Allowances

The City of Newark has established monthly allowances for utilities and services (excluding telephone). The DHA must review and approve rents proposed by the owner for units subject to the maximum rent limitations in paragraphs (a) or (b) of this section. For all units subject to the maximum rent limitations in paragraphs (a) or (b) of this section for which the tenant is paying utilities and services, the DHA must ensure rents do not exceed the maximum rent minus the monthly allowances for utilities and services.

Nondiscrimination Against Rental Assistance Subsidy Holders

The owner cannot refuse to lease HOME-assisted units to a certificate or voucher holder under 24 CFR part 982-Section 8 Tenant-Based Assistance: Unified Rule for Tenant-Based Assistance under the Section 8 Rental Certificate Program and the Section 8 Rental Voucher Program or to the holder of a comparable document evidencing participation in a HOME tenant-based rental assistance program because of the status of the prospective tenant as a holder of such certificate, voucher or comparable HOME tenant-based assistance document.

Subsequent Rents During The Affordability Period

The maximum HOME rent limits are recalculated on a periodic basis after HUD determines fair market rents and median incomes. HUD then provides the new maximum HOME rent limits to the City of Newark. Regardless of changes in fair market rents and in median income over time, the HOME rents for a project are not required to be lower than the HOME rent limits for the project in effect at the time of project commitment.

The City of Newark must provide Homeowner(s) with information on updated HOME rent limits so that rents may be adjusted (not to exceed the maximum HOME rent limits described above).

Any increase in rents for HOME assisted units is subject to the provisions of outstanding leases, and in any event, the owner must provide tenants of those units not less than 30-days prior written notice before implementing any increase in rents.

Adjustment Of HOME Rent Limits

1. Changes in fair market rents and in median income over time should be sufficient to maintain the financial viability of a project within the HOME rent limits.
2. HUD may adjust the HOME rent limit only if HUD finds that an adjustment is necessary to support the continued financial viability of the project and only by an amount that HUD determines is necessary to maintain continued financial viability of the project. This authority will be used sparingly.

Tenant Income

The income of each tenant must be determined initially in accordance with 92.203(a)(1)(i). In addition, each year during the period of affordability the homeowner(s) must reexamine each tenant's annual income in accordance with one of the options in 92.203 selected by the City of Newark. A homeowner(s) with an affordability period of 10 years or more who re-examines tenant's annual income through a statement and certification in accordance with 92.203(a)(1)(ii), must examine the income of each tenant, in accordance with 92.203(a)(1)(i), every sixth year of the affordability period. Otherwise, the homeowners(s) who accepts the tenant's statement and certification in accordance with 92.203(a)(1)(ii) is not required to examine the income of tenants in multifamily or single-family projects unless there is evidence the tenant's written statement failed to completely and accurately state information about the family's size of income.

Over-Income Tenants

Home-assisted units continue to qualify as affordable housing despite a temporary noncompliance caused by increases in the incomes of existing tenants if actions satisfactory to HUD and the City of Newark are being taken to ensure that all vacancies are filled in accordance with this section until the noncompliance is corrected.

Tenants who no longer qualify as low-income families must pay as rent the lesser of the amount payable by the tenant under State or local law or 30% of the family's adjusted income, except that tenants of HOME-assisted units that have been allocated low-income housing tax credits by a housing credit agency pursuant to section 42 of the Internal Revenue Code of 1986 (26 U.S.C. 42) must pay rent governed by section 42. In addition, in projects that HOME units are designated as floating pursuant to paragraph (j), tenants who no longer qualify as low-income are not required to pay as rent an amount that exceeds the market rent for comparable, unassisted units in the neighborhood.

Fixed And Floating HOME Units

In a project containing HOME-assisted and other units, the City of Newark may designate fixed or floating HOME units. This designation must be made at the time of project commitment. Fixed units remain the same throughout the period of affordability. Floating units are changed to maintain conformity with the requirements of this section during the affordability so the total number of housing units meeting the requirements of this section remains the same, and each substituted unit is comparable in terms of size, features, and number of bedrooms to the originally designated HOME-assisted unit.

Tenant and Participant Protections

a. Lease

The lease between a tenant and an Owner(s) of rental housing assisted with HOME funds must be for not less than one year, unless by mutual agreement between the tenant and the Owner(s).

b. Prohibited Lease Terms

The lease between the tenant and the Owner(s) may not contain any of the provisions listed in CFR 92.253.

Senior Applicants - Amount of Awarded Funds

\$1,000 -- 14,999 -- The applicant(s) will receive a 5-year Deferred Loan. This loan will be prorated over the 5-year period. Should the applicant(s) reside in the property for the entire period of affordability, the Deferred Loan will revert to a grant and the DHA will remove the lien from the property. Should the Homeowner(s) sell the property within the affordability period, the prorated balance must be repaid to the city when the property is sold.

Should a Senior Homeowner(s) receive \$15,000 or more, the Deferred Loan will be prorated over the applicable period of affordability. Should the applicant(s) reside in the property for the entire period of affordability, the Deferred Loan will revert to a grant and the DHA will remove the lien from the property. Should the Homeowner(s) sell the property within the affordability period, the prorated balance must be repaid to the city when the property is sold. Then, the DHA will remove the lien from the property.

Non-Senior Applicants

A non-Senior applicant, whose income is less than 80% of the median income for a family in Newark (See Eligibility Scale Chart I above), will be provided a Deferred Payment Loan based on the following:

Amount of Awarded Program Funds

All Dollar Amounts -- The applicant(s) will receive a Deferred Loan for the duration of the period of affordability. This loan will be prorated over the required number of years. Should the Homeowner(s) reside in the property for the entire period of affordability, the Homeowner(s) must repay the city 50% of the Deferred Loan at 0% interest. Once the loan balance has been paid to the City of Newark, the DHA will remove the lien from the property. Should the Homeowner(s) sell the property within the affordability period, 100% of the Deferred Loan must be repaid to the city, along with interest (prime interest rate plus 2-points). The lien will remain on the property until payment is received by the city.

E. Eligibility Requirements

Applicants shall be eligible to participate in the NRP only if they meet the program income eligibility requirements. Municipal property taxes, water bills, mortgage payments and property insurance must be current at the time the applicant(s) apply to this program. A DHA employee shall verify the payment status of each applicant's above listed accounts with the city, Mortgage Company and insurance company. These accounts must have a current payment status, or the applicant must have a payment agreement with the City of Newark.

Each applicant must also submit to the DHA a copy of the hazard insurance policy for the subject property. This hazard insurance must state the insurance will remain in full force throughout their participation in the NRP.

F. Eligibility Criteria for Property Improvements

Rehabilitation under the NRP is restricted to cover building facade treatments and deficiencies that are categorized as Mandatory Code Violations. Mandatory Code Violations are defined as those "defective" systems within a building that jeopardize the health, safety, and welfare of the occupants. The abatement of these items must be deemed necessary, based upon City and State health codes. At least one code violation must exist at the homeowner's property. Facade improvements include exterior painting, window replacement and aluminum siding. The replacement of damaged sidewalks is also an eligible repair item under this NRP.

The Department reserves the final judgment on all items being considered for rehabilitation. Modifications of these rehabilitation guidelines can only be made by the Department of Economic and Housing Development.

Authorization to Enter Into Contract - The Director of the Department of Economic and Housing Development, or his designee, is authorized to enter into contracts, execute deeds or other necessary documents for participation in the Neighborhood Rehabilitation Program with eligible Newark homeowner occupants upon their demonstration of compliance with all terms and regulations established by the Department of Economic and Housing Development and the City of Newark. All contracts shall be attested by the City Clerk and approved as to form and legality by the Corporation Counsel.

Annual Report to Council - The Director of the Department of Economic and Housing Development shall provide the Municipal Council with an annual report by December 31 of each year identifying:

- (i) Names and number of contracts entered into.
- (ii) The amount of said contracts.
- (iii) The property addresses for such contracts.

MEMORANDUM

TO: HONORABLE SHARPE JAMES, MAYOR

FROM: JOANNE Y. WATSON, CORPORATION COUNSEL

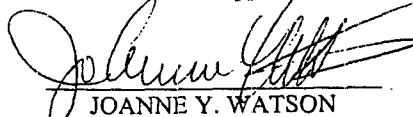

DATE: JANUARY 24, 2005

RE: **An Ordinance Amending Ordinance 6S&FU 010897, entitled, an Ordinance Amending Title 20, Police and Fire Departments, Chapter 1, Police Department and Chapter 2, Fire Department, of the revised ordinances of the City of Newark, New Jersey, 2000, as amended and supplemented (by requiring Mayor and Council notification of Police and Fire casualties).**

The above referenced ordinance has been reviewed as to form and legality. I have two concerns which should be addressed. First, the ordinance requires the Police and Fire Departments to notify each member of the Municipal Council of all police and fire related casualties. The respective departments can address how this mandate may impact their respective departments. However, from a legal prospective I believe that the ordinance is contrary to the Faulkner Act. Pursuant to N.J.S.A. 40:69A-37.1 the Mayor retains full control over employees of the administrative departments. "All contacts with the employees, and all actions and communications concerning the administration of the government and the provision of municipal services shall be through the Mayor or his designee..." Although the Municipal Council may require a report on any aspect of the government it must be directed to the Mayor.

Second, it is important to note that police and/or fire casualties frequently result in litigation against the City of Newark and/or its employees or agents. Therefore, all reports should be provided initially to the Corporation Counsel in order to assess the City's interest.

If the ordinance is amended to have the Municipal Council request the Mayor to provide a report on fire and police casualties it can be approved as to form and legality.

JOANNE Y. WATSON
